# Necron Rules

## Awakening Protocols (Tier)

This rule is accompanied by a tier of Bronze, Silver, Gold, and Platinum. Units with this rule can only be included in lists which contain an HQ model with the corresponding **Command Protocols** tier or lower.

## Command Protocols

At the start of the game, after both sides have deployed, each unit with this ability may select a Command Protocol that can be used during the game. Many options allow the player to roll a **Command Protocol check** for additional benefits. To do so, roll a Leadership Check, with success granting the listed effects. Failure causes the listed negative effect immediately.

### Protocol of Eternal Guardian

This unit may give up their Shooting Attacks this turn to use this power during the Movement Phase. Select a single friendly Necron unit within **Nodal Range** that has not moved yet and apply one of the following affects to the unit:

- The chosen unit gains a 6+ Cover Save, but may not Run, until your next turn

•

You may choose to make a

### Protocol of Sudden Storm

This unit may give up their Shooting Attacks this turn to use this power during the Movement Phase. Select a single friendly Necron unit within **Nodal Range** that has not moved yet and apply one of the following affects to the unit:

- The chosen unit may immediately move a number of inches up to twice its unmodified Initiative Characteristic. If the chosen unit has mixed Initiative Characteristics, use the highest unmodified Characteristics.
- The chosen unit ignores Difficult and Dangerous Terrain alongside negative modifiers to their movement until your next turn.

You may choose to make a Command Protocol check before using this power, if the check is successful two different options may be applied. If the Check is failed, the target unit may only move half their Movement (rounded down) this turn.

### Protocol of Vengeful Stars

This unit may give up their Shooting Attacks this turn to use this power during the Shooting Phase. Select a single friendly Necron unit within **Nodal Range** that has not shot yet and apply one of the following affects to the unit:

- The chosen unit's Ranged Weapons gain the Ignores Cover rule until your next turn.
- The chosen unit's Ranged Weapons gain Breaching (6+) or increase the level of Breaching or Rending by 1 until your next turn.
- The chosen unit gains Relentless until your next turn.

You may choose to make a Command Protocol check before using this power, if the check is successful two different options may be applied. If the Check is failed, the target unit suffers -1 BS this turn.

### Protocol of the Hungry Void

This unit may give up their Shooting Attacks this turn to use this power during the Shooting Phase. Select a single friendly Necron unit within **Nodal Range** apply one of the following affects to the unit:

- The chosen unit gains the Hatred trait until your next turn.
- The chosen unit's Melee Weapons gain Breaching (6+) or increase the level of Breaching or Rending by 1 until your next turn.

•

You may choose to make a Command Protocol check before using this power, if the check is successful two different options may be applied. If the Check is failed, the target unit suffers -1 WS this turn.

### Protocol of the Undying Legions

This unit may give up their Shooting Attacks this turn to use this power during the Shooting Phase. Select a single friendly Necron unit within **Nodal Range** and apply one of the following affects to the unit:

- The chosen unit can re-roll results of 1 once for **Reanimation Protocols** until next turn. Dynastic Warriors can re-rolls results of 1-2.
- The chosen unit's **Living Metal** ability has its It Will Not Die level increased to 3+ until next turn.

•

You may choose to make a Command Protocol check before using this power, if the check is successful two different options may be applied. If the Check is failed, the target unit suffers -1 to *Reanimation Protocol* rolls until next turn.

### Protocol of the Conquering Tyrant

This unit may give up their Shooting Attacks this turn to use this power during the Movement Phase. Select a single friendly Necron unit within **Nodal Range** and apply one of the following affects to the unit:

•

- The chosen unit gains the Hit & Run ability until your next turn.

•

You may choose to make a Command Protocol check before using this power, if the check is successful two different options may be applied. If the Check is failed, the target unit gains the Soulless Hordes (Bronze) trait this turn, if it did not already have it, and cannot ignore the Engrammatic Attack Patterns provision this turn.

### Nodal Command (Tier)

This rule is accompanied by a tier of Bronze, Silver, Gold, and Platinum. Each tier provides a specified range known as Nodal Range, which many other abilities reference for their effects. Additionally, any unit with the Soulless Hordes sub-type may ignore the Engrammatic Attack Patterns provision while within Nodal Range of a unit with this rule. The highest tier unit in your army *must* be your Warlord.

Tier	Nodal Range
Bronze	6"
Silver	9"
Gold	12"
Platinum	12"

### Entropic Strike (X)

When allocating wounds from a Wound Pool from a weapon with this special rule, lower the target model's Armour Save by 1 (e.g. 3+ -> 4+) permanently before making its save. Against Vehicles, an Armour Penetration roll equal to or greater than the listed value lowers the AV of all facings by 1 permanently before resolving the effects. Vehicles with lowered to an AV of 0 are destroyed and removed from the battlefield.

### Gauss (X)

When firing a weapon with this special rule, a To Wound roll equal to or higher than the value listed wounds automatically, regardless of the target's Toughness. Against vehicles and buildings, an Armour Penetration roll equal to or higher than the value listed inflicts a Glancing hit. Super Heavy and Gargantuan Creatures are immune to this effect.

### Living Metal

Infantry and Vehicles with this rule have **It Will Not Die (5+)**. Successful Wounds inflicted by attacks with the Poisoned or Fleshbane special rules must be re-rolled. The Shock Pulse affects models with this rule as well. Leadership penalties caused by the Anethema sub-type are ignored.

Vehicles ignore the effects of Crew Shaken (but still lose a Hull Point). If the vehicle is Heavy or Super-Heavy, they are not subject to the particular effects of the Lance and Melta special rules by attacks made against it. In addition, it reduces the effects of all rolls on the Vehicle Damage chart caused by Penetrating hits (other than by Destroyer type weaponry) by -1.

### Decurion/Tesseractarion Nemessor

The Decurion Nemessor / Tesseractarion Nemessor special rule grants the following benefits:

- Rites of War: If a Detachment with the Necron Faction includes at least one model with the Decurion Nemessor special rule then that Detachment may select a single Rite of War.
- Lord of the Legion: An army may only include a maximum of one model with this special rule per 1,000 points. This counts across all Detachments of an army.
- A model with this special rule may also include an Immortals, Pariah Lychguard, or Royal Lychguard unit as part of the same Force Organisation slot as the model with the Decurion Nemessor special rule, but must still meet the required **Awakening Protocols** tier.

If multiple units are eligible to take this ability, it can only be taken by those with the highest Nodal Command tier in the force that has not already taken this ability.

### Reanimation Protocols

Whenever a unit with Reanimation Protocols would suffer wounds, after the opponent's unit's attacks or the effects have been resolved and models have been removed total the number of wounds that have been lost among models that were destroyed, the unit begins **reassembling** a number of wounds equal to this amount. For each wound that is being reassembled, roll a d6, subtracting one for wounds with Instant Death. This unit **reanimates** a wound for every 5+ roll. Each time such a unit reanimates a wound:

- If that unit is less than its Starting Strength, return one destroyed model to play in cohesion range with one wound remaining.
- Then, if that unit is at its Starting Strength and has models that are missing any wounds, one of the models with the least wounds regains a wound. Controlling player decides in case of ties.

When assigning wounds to units that have multiple models missing any wounds, assign them to the models with the lowest amount of wounds. In case of ties, the attacking player decides which models to apply them to.

### Soulless Hordes (X)

Models with the Soulless Hordes subtype are subject to the Engrammatic Attack Patterns provision, which has effects dependent on the tier of the subtype:

**Bronze:** During the controlling player's Shooting phase and Charge sub-phase, the Soulless Hordes unit must attempt a Shooting Attack if there is an enemy unit within range (they are not forced to charge), and must target the closest enemy unit possible that is within its line of sight and a valid target for a Shooting Attack or Charge. If two or more targets are equally close then the controlling player chooses which will be the target of a Shooting Attack or Charge. Similar to the Fearless rule, this unit cannot choose to fail a Morale check due to the Our Weapons Are Useless special rule. Additionally, they may not make Reactions.

**Silver:** During the controlling player's Shooting phase and Charge sub-phase, *if* the unit attempts a Shooting Attack and/or Charge they must target the closest enemy unit possible that is within its line of sight and a valid target for a Shooting Attack or Charge. If two or more targets are equally close then the controlling player chooses which will be the target of a Shooting Attack or Charge. Similar to the Fearless rule, units with this subtype cannot use any Reactions that grant a Cover Save, Armour Save or Invulnerable Save, and cannot choose to fail a Morale check due to the Our Weapons Are Useless special rule.

The **Command Protocols** trait is able to suppress this sub-type's effects while in Nodal Range.

### Tesla (X)

When firing a weapon with this special rule, a To Hit roll equal to or higher than the value listed generates an additional 2 hits. These hits may be applied to the target unit, or to any unit within 2" of the target unit.

### Technoarkana

**Dispersion Shield** Grants a 3+ Invulnerable Save, but the wielder never receives +1 Attack for fighting with two Melee weapons.

**Gloom Prism** This model gains the Anathema sub-type. Additionally, any psychic power targeting a unit within 3" of this model is nullified on a 4+.

**Mindshackle Scarabs** At the start of the Fight sub-phase, select a model in base contact with the bearer. The target must take a Leadership Check on 3D6. If the Check is failed, the victim strikes at his allies instead of attacking normally. During the Fight sub-phase, the target makes his attacks against his own unit (automatically hitting if they are the only model in the unit), resolved as normal with any abilities and penalties from his weapons (the controller of the Mindshackle Scarabs chooses which, if there is a choice). If the target is still alive, the victim returns to normal once all blows in that round of combat have been struck.

**Phylactery** Increase the models It Will Not Die level to 3+.

**Phase Shifter** Grants a 4+ Invulnerable Save.

**Resurrection Orb** Once per battle, on your turn, the bearer can activate their Resurrection Orb. If it does, select one friendly unit with **Reanimation Protocols** within **Nodal Range**. The bearer of the Orb and the selected unit immediately **reassembles** a number of wounds equal to the total number of missing wounds and number of wounds from all destroyed models.

**Semipternal Weave** Increase the model's save to 2+.

**Tesseract Labyrinth** One use only.

The bearer can use the Tesseract Labyrinth in lieu of making a Shooting or Close Combat attack this round. Choose a unit within 6". The unit must immediately roll a Wounds Check for each model based on their current remaining wounds or be trapped within the Labyrinth while the Necron Character remains alive.

This can also be used to carry a unit alongside the bearer. Select a unit to start the game inside the Tesseract Labyrinth. They can be disembarked as if they were in a Transport with no Special Abilities following the relevant rules.

If paired with the **Mindshackle Scarabs** wargear, this can also be a unit chosen from an enemy faction. The unit is treated as a Distrusted Ally and still take up a relevant Force Org Slot. In narrative games, units that are captured at the end of the game can be included as well. Leave it your opponents as to whether it includes a Force Org Slot or points.

### Atavindicator \_\_\_\_\_ X pts

The bearer can activate the Atavindicator at the end of their Movement, selecting an enemy unit that is not a Vehicle within 18". The targeted unit must roll a Leadership Check with a -4 penalty. Failure causes each model in the unit to automatically hit itself with a S +1 AP — melee attack.

### Nightmare Shroud \_\_\_\_\_ X pts

In addition, when this special rule is used, enemy units targeting the bearer or his unit can only fire Snap Shots until the start of the bearer's next turn.

## Quantum Orb \_\_\_\_\_ X pts

Once per battle, at the start of your turn, the bearer can activate this item. If it does, select one point on the battlefield anywhere within 24" of the bearer and place a marker at that point. At the start of your next turn, resolve a S8 AP 3 Large Blast hit directly on that location.

## Harbingers of Technomancy \_\_\_\_\_ X pts

Technomancers must take a **Staff of Light** when selecting the Harbingers of Technomancy as their Discipline. Additionally, they must purchase the **Rites of Reanimation** ability.

### Canoptek Cloak \_\_\_\_\_ X pts

Increase the bearer's move to 12" and it gains the Fleet (1) rule alongside the Antigrav and Light sub-type.

### Canoptek Control Node \_\_\_\_\_ X pts

Increase your **Nodal Range** to 12" for the purposes of suppressing the **Soulless Hordes** trait for units with the Canoptek sub-type.

### Fail-Safe Overcharger \_\_\_\_\_ X pts

Psychic power thing where you have a lot of option and roll with penalties for each you want, causing wounds on fail.

- Test

### Phylacterine Hive \_\_\_\_\_ X pts

Once per battle, when using your **Rites of Reanimation** ability, you may select a non-friendly unit with **Reanimation Protocols** (Such as Destroyer Cult or Flayer Virus units) to be affected.

#### Rites of Reanimation

After this model has moved, select a friendly unit with **Reanimation Protocols** within **Nodal Range** on the bearer. ## Specialist Powers

### Gaze of Death

In its Shooting phase, in addition to using Powers of the C'tan, this model can target one non-vehicle enemy unit within 12" to which it has line of sight. The unit suffers a number of Wounds, dependent on the level of the C'Tan. Shard level causes wounds equal to 3D6 minus the target's Leadership while Transcendent causes 4D6. These are resolved at AP2 and with the Ignores Cover special rule. If at least one unsaved Wound is inflicted, the C'tan Shard of the Nightbringer immediately regains one Wound lost earlier in the battle.

### Lord of Fire (X)

All Flamer weapons (as well as Heat Rays, Burnas, Skorchas, Inferno Cannons and any other weapons which is described as using 'flame' or 'fire' as its effect or in its special rules) and weapons with the melta type fired within 12" of the C'tan Shard have a chance of exploding. Roll a D6 each time such a weapon is fired within range. On a roll equal or greater to this power's level, the weapon detonates. If carried by a non-vehicle model, the model is removed from play as a casualty with no saves. If mounted on a vehicle, it counts as Weapon Destroyed and causes the lose of a Hull Point. In either case, the shot(s) misfire and are lost.

**Shard:** Lord of Fire (6+)

**Transcendent:** Lord of Fire (5+)

### Gaze of the Abyss

If this model would be targeted by a Shooting Attack or Charge, the attacking unit must immediately make a Morale Test. Additionally, the C'Tan has the Fear ability at a level dependent on its level.

**Shard:** Fear (2)

**Transcendent:** Fear (3)

### Grand Illusion

After all forces have been deployed and all Scout moves have been made, roll a dice dependent on the C'Tan's level, being a D3 for Shard and D6 for Transcendent. You can immediately redeploy this many units, subject to the normal deployment rules for the mission. This power can be used to move units into or out of, reserve.

### Voltaic Storm

After this model has completed its movement, target an enemy Vehicle, Dreadnought, or Automata unit within 18" with this power. Roll a D6 to determine the effect, dependent on the C'Tan's level.

The attack has no effect against Vehicles. Successful wounds against Dreadnoughts and Automata must be re-rolled.</p> <p><b>Necrodermis Vessel:</b> The C’Tan has a 4+ invulnerable save.</p> <p><b>Enslaved Star God:</b> If this model would be removed (After <b>Reanimation Protocols</b> have been failed), roll a D6. On a 1, the shackles for the C’Tan Shard have been broken and it is now rampaging. The enemy player may return the model to a point within 3" of where it died with 1 Wound remaining. It is now treated as an enemy unit to all players, taking its turns at the beginning of its owner’s turns. It will attempt to attack the closest nearby unit, preferring its owner’s units on a tie. If it would be removed while rampaging, this ability does not trigger again.</p> <p><b>Unfathomable Horror:</b> Enemy models with Fearless are treated as only having Stubborn and those with Stubborn are treated as having no ability, for the purposes of determining Morale checks caused by this model.</p> <p><b>Immune to Natural Laws:</b> When moving, this model can move over all other models and terrain freely, and automatically passes Dangerous Terrain tests. <b>Particle Beamer</b>	24"	Heavy 1	6	5	Blast, Twin-Linked

Abilities

Fearless, **Living Metal**, **Reanimation Protocols**, **Soulless Hordes** (Silver)

**Fabricator Claw Array:** In each of your Shooting phases, instead of firing a weapon, a model with a fabricator claw array can choose to repair a single friendly vehicle that it is in base contact with. To repair a vehicle, roll a D6. If the result is a 4 or more, you may either restore a Hull Point lost earlier in the battle or repair a Weapon Destroyed or Immobilised result suffered earlier in the battle; this is effective immediately.

**Nodal Relay:** If a Canoptek Spyder is within **Nodal Range** of a model it will extend that range an additional 6" from the Spyder model, acting as a relay point.

**Scarab Hive:** Once per friendly Movement phase, each Canoptek Spyder can use this special rule to create Canoptek Scarabs. To do so, nominate a friendly unit of Canoptek Scarabs that is within 6" of the Canoptek Spyder. Add a single Canoptek Scarab base to the unit – this can take the unit beyond its starting size, but must be placed within 6" of the Canoptek Spyder. If a model cannot be placed for any reason, it is destroyed. Canoptek Scarabs created in this manner can move and act normally this turn. Roll a D6 each time a Canoptek Spyder uses its Scarab Hive special rule, immediately after placing any Canoptek Scarabs that were created – on a roll of a 1 the Canoptek Spyder suffers a single Wound with no saves of any kind allowed. In addition, for each unit of Spyders in the army, a unit of Canoptek Scarabs may be taken which do count towards the maximum number of units in their respective Force Organisation slot.
