# Necron Rules

## Special Rules

### Annihilation Protocols

Only a single unit with Annihilation Protocol may be taken in armies using the Nodal Command Force Organisation Chart that contains any Fortifications.

### Awakening Protocols (Tier)

This rule is accompanied by a tier of Bronze, Silver, Gold, and Platinum. Units with this rule can only be included in lists which contain an HQ model with the corresponding **Nodal Command** tier or higher. Some units have both of these special rules, in which case they cannot satisfy this rules requirements with their own **Nodal Command** special rule.

### Command Protocols

At the start of the game, after both sides have deployed, each unit with this ability may select a Command Protocol that can be used during the game. Many options allow the player to roll a **Command Protocol check** for additional benefits. To do so, roll a Leadership Check, with success granting the listed effects. Failure causes the listed negative effect immediately.

#### Protocol of Eternal Guardian

This model may give up their Shooting Attacks this turn to use this power during the Movement Phase. Select a single friendly Necron unit within **Nodal Range** that has not moved yet and apply one of the following affects to the unit:

- The chosen unit gains a 5+ Cover Save, but may not Run, until your next turn
- 

You may choose to make a Command Protocol check before using this power, if the check is successful two different options may be applied. If the Check is failed,

#### Protocol of Sudden Storm

This model may give up their Shooting Attacks this turn to use this power during the Movement Phase. Select a single friendly Necron unit within **Nodal Range** that has not moved yet and apply one of the following affects to the unit:

- The chosen unit may immediately move a number of inches up to twice its unmodified Initiative Characteristic. If the chosen unit has mixed Initiative Characteristics, use the highest unmodified Characteristics.
- The chosen unit ignores Difficult and Dangerous Terrain alongside negative modifiers to their movement until your next turn.

You may choose to make a Command Protocol check before using this power, if the check is successful two different options may be applied. If the Check is failed, the target unit may only move half their Movement (rounded down) this turn.

#### Protocol of Vengeful Stars

This model may give up their Shooting Attacks this turn to use this power during the Shooting Phase. Select a single

friendly Necron unit within **Nodal Range** that has not shot yet and apply one of the following affects to the unit:

- The chosen unit's Ranged Weapons gain the Ignores Cover rule until your next turn.
- The chosen unit's Ranged Weapons gain Breaching (6+) or increase the level of Breaching or Rending by 1 until your next turn.
- The chosen unit gains Relentless until your next turn.

You may choose to make a Command Protocol check before using this power, if the check is successful two different options may be applied. If the Check is failed, the target unit suffers -1 BS this turn.

#### Protocol of the Hungry Void

This model may give up their Shooting Attacks this turn to use this power during the Shooting Phase. Select a single friendly Necron unit within **Nodal Range** apply one of the following affects to the unit:

- The chosen unit gains the Counter Charge (1) special rule until your next turn.
- The chosen unit's Melee Weapons gain Breaching (6+) or increase the level of Breaching or Rending by 1 until your next turn.
- The chosen unit gains the Furious Charge (1) special rule until your next turn.

You may choose to make a Command Protocol check before using this power, if the check is successful two different options may be applied. If the Check is failed, the target unit suffers -1 WS this turn.

#### Protocol of the Undying Legions

This model may give up their Shooting Attacks this turn to use this power during the Shooting Phase. Select a single friendly Necron unit within **Nodal Range** and apply one of the following affects to the unit:

- The chosen unit can re-roll results of 1 once for **Reanimation Protocols** until next turn. Dynastic Warriors can re-rolls results of 1-2.
- The chosen unit's **Living Metal** ability has its It Will Not Die level increased by 2 levels (e.g. 5+ -> 3+)
- until your next turn.

You may choose to make a Command Protocol check before using this power, if the check is successful two different options may be applied. If the Check is failed, the target unit suffers -1 to *Reanimation Protocol* rolls until next turn.

#### Protocol of the Conquering Tyrant

This model may give up their Shooting Attacks this turn to use this power during the Movement Phase. Select a single friendly Necron unit within **Nodal Range** and apply one of the following affects to the unit:

- The chosen unit counts as being in **Nodal Range** of all units with the **Command Protocols** special ability until your next turn.

- The chosen unit gains the Hit & Run ability until your next turn.

•

You may choose to make a Command Protocol check before using this power, if the check is successful two different options may be applied. If the Check is failed, the target unit gains the Soulless Hordes (Bronze) trait this turn, if it did not already have it, and cannot ignore the Engrammatic Attack Patterns provision this turn.

### Curse of Llandu'gor

A model with this special rule does not suffer the penalties for low Levels of Alliance (e.g. the Leadership penalty for *By the Pharon's*), although its allied units still do.

### Drawn to Blood

A model with this special rule must start the game in Reserve or Infiltrate. Each time an enemy unit is completely destroyed the Necron player may move one unit with the Flayer sub-type from Reserve into Ongoing Reserve, even if this means that a unit will appear turn One. Independent Characters may be attached to their units when entering.

### Nodal Command (Tier)

This rule is accompanied by a tier of Bronze, Silver, Gold, and Platinum. Each tier provides a specified range known as Nodal Range, which many other abilities reference for their effects. Any unit within Nodal Range of this unit may use its Leadership in place of its own and units with the *Soulless Hordes* sub-type may ignore the Engrammatic Attack Patterns provision. The highest tier unit in your army *must* be your Warlord.

Tier	Nodal Range
Bronze	6"
Silver	9"
Gold	12"
Platinum	12"

### Mark of the Flayer

If this model or its attached unit destroys an enemy unit during the Assault Phase or fails a Morale check, immediately roll a D6 and apply the result as determined below:

D6 Result

- Berserk:** The model is seized by murderous fury and unable to tell friend from foe. If part of an infantry unit, resolve D3 automatic hits on that unit using the model's weapons. If alone, the model suffers an immediate Wound, with no save allowed.
- In Control:** The model is able to control their madness by sheer force of will, giving no effect.
- Transfiguration:** The model is transfigured by madness, their auto-repair system distorting their form to express the malignance that consumes them. They gains the Fearless and Rage (1) trait until the end of combat.

### Entropic Strike (X)

When allocating wounds from a Wound Pool from a weapon with this special rule, lower the target model's Armour Save by 1 (e.g. 3+ -> 4+) permanently before making its save. Against Vehicles, an Armour Penetration roll equal to or greater than the listed value lowers the AV of all facings by 1 permanently before resolving the effects. Vehicles with lowered to an AV of 0 are destroyed and removed from the battlefield.

### Ethereal Interceptors

This unit is may perform a separate Deep Strike Assault. Additionally, it may make use of the *Ethereal Interception* Advanced Reaction.

### Exile Ray (X)

When firing a weapon with this special rule, a To Wound roll equal to or higher than the value listed wounds automatically, regardless of the target's Toughness, has the Instant Death special rule, and the victim must re-roll successful Invulnerable saves. Against Vehicles and Buildings, an Armour Penetration roll equal to or higher than the listed value inflicts a Penetrating Hit.

### Gauss (X)

When firing a weapon with this special rule, a To Wound roll equal to or higher than the value listed wounds automatically, regardless of the target's Toughness. Against vehicles and buildings, an Armour Penetration roll equal to or higher than the value listed inflicts a Glancing hit.

### Hyperspace Hunters

A unit with this rule specializes in combat that makes use of movement through hyperspace pocket dimensions. In your Movement Phase, this unit may slip back into hyperspace instead of moving, as long as it did not arrive from Reserves this turn and is not locked in combat or Falling Back. If it does so, remove it from the board and place it into Ongoing Reserves. It can be assigned to a Deep Strike Assault as normal on your Next Player Turn. Models with this rule still make It Will Not Die rolls while placed back into reserves.

### Decurion/Tesseractarion Nemesor

The Decurion Nemesor / Tesseractarion Nemesor special rule grants the following benefits:

- Rites of War: If a Detachment with the Necron Faction includes at least one model with the Decurion Nemesor special rule then that Detachment may select a single Rite of War.
- Lord of the Legion: An army may only include a maximum of one model with this special rule per 1,000 points. This counts across all Detachments of an army.
- A model with this special rule may also include an Immortals, Pariah Lychguard, or Royal Lychguard unit as part of the same Force Organisation slot as the model with the Decurion Nemesor special rule, but must still meet the required *Awakening Protocols* tier.

If multiple units are eligible to take this ability, it can only be taken by those with the highest Nodal Command tier in the force that has not already taken this ability.

## Reanimation Protocols

Whenever a friendly unit with Reanimation Protocols suffers unsaved wounds or resolves an effect causing wounds, and casualties have been removed, total the number of wounds that have been lost among models that were destroyed and put them into a **Reassembling Pool** and a second **Reassembling Pool** for wounds that have the Instant Death special rule.

For each wound in the **Reassembling Pool**, roll a D6, subtracting 1 for wounds in the Instant Death **Reassembling Pool**. This unit is **Reanimating** a wound for every 5+ roll. Each time such a unit **Reanimates** a wound, perform the following steps:

- If that unit is less than its Starting Strength, return one destroyed model to play in cohesion range with one wound remaining.
- Then, if that unit is at its Starting Strength and has models that are missing any wounds, select a model with the lowest remaining wounds; it regains one lost wound.

If this unit would be destroyed by the attack or effect, Reanimation Protocols still triggers; perform the process as normal, however after models have been returned from successful **Reanimation** rolls, if there are remaining wounds in the Wound Pool, continue allocating those to the newly **Reanimated** models until the Wound Pool is empty or all **Reanimation** rolls have failed; these remaining wounds *can* cause further Reanimation Protocols triggers. Do note that effects that simply destroy the unit (e.g. Sweeping Advance) do not trigger Reanimation Protocols.

When assigning wounds to units that have multiple models missing any wounds, assign them to the models with the least amount of wounds. In case of ties, the attacking player decides which models to apply them to.

Certain effects can cause models to immediately begin **Reassembling** or **Reanimating**; **Reassembling** models create a **Reassembling Pool** equal to the lost wounds of those model and then roll for them as normal. **Reanimating** models immediately follow the steps for **reanimating** a number of times equal to the wounds of the destroyed model.

## Unit Subtypes

### Living Metal

Models with the Living Metal subtypes gain a number of effects:

- Models with the Living Metal subtype have the It Will Not Die (5+) Special rule.
- Successful Wounds inflicted by attacks with the Poisoned or Fleshbane special rules must be re-rolled against models with the Living Metal subtype.
- The Shock Pulse and Disruption special rules affect models with the Living Metal subtype.
- Models with the Living Metal subtype ignore Leadership penalties caused by the Anethema sub-type.
- Models with the Living Metal subtype may not make Sweeping Advances, unless a rule specifies otherwise.
- Vehicles with the Living Metal subtype ignore the effects of Crew Shaken (but still lose a Hull Point).

### Soulless Hordes (X)

Models with the Soulless Hordes subtype are subject to the Engrammatic Attack Patterns provision, which has effects dependent on the tier of the subtype:

**Bronze:** During the controlling player's Shooting phase and Charge sub-phase, the Soulless Hordes unit must attempt a Shooting Attack if there is an enemy unit within range (they are not forced to charge), and must target the closest enemy unit possible that is within its line of sight and a valid target for a Shooting Attack or Charge. If two or more targets are equally close then the controlling player chooses which will be the target of a Shooting Attack or Charge. Similar to the Fearless rule, this unit cannot choose to fail a Morale check due to the Our Weapons Are Useless special rule. Additionally, they may not make Reactions.

**Silver:** During the controlling player's Shooting phase and Charge sub-phase, *if* the unit attempts a Shooting Attack and/or Charge they must target the closest enemy unit possible that is within its line of sight and a valid target for a Shooting Attack or Charge. If two or more targets are equally close then the controlling player chooses which will be the target of a Shooting Attack or Charge. Similar to the Fearless rule, units with this subtype cannot use any Reactions that grant a Cover Save, Armour Save or Invulnerable Save, and cannot choose to fail a Morale check due to the Our Weapons Are Useless special rule.

The **Command Protocols** trait is able to suppress this sub-type's effects while in Nodal Range.

### Teleporation Reserves

#### Tesla (X)

When firing a weapon with this special rule, a To Hit roll equal to or higher than the value listed generates an additional 2 hits. These hits may be applied to the target unit, or to any unit within 2" of the target unit.

### Tomb Guardians

Only a single unit with the Tomb Guardians rule may be used in any army which is built using the Nodal Command Force Organisation Chart and does not contain any Fortifications, should the army contain Fortifications there is no limit.

- Heavy or Super-Heavy Vehicles with the Living metal subtype are not subject to the particular effects of the Lance and Melta special rules by attacks made against it and reduce the effects of all rolls on the Vehicle Damage chart caused by Penetrating hits (other than by Destroyer type weaponry) by -1.

### **Canoptek**

Models with the Canoptek subtype gain the Fearless special rule.

### **Destroyer**

Models with the Destroyer subtype gain a number of effects:

- All models gain the Preferred Enemy (Non-Necrons) special rule.
- All models gain the Hardwired for Destruction special rule, which grants: Units with the Destroyer sub-type ignore the Living Metal sub-type's restriction on performing Sweeping Advances.

### **Flayer**

Models with the Flayer subtype gain a number of effects:

- All models gain the Hatred (Non-Necrons) special rule.
- All models gain the Fear (2) special rule.
- All models gain the Deep-Strike and Infiltrate special rule,
- All models gains the Flesh Hunters special rule, which grants: Units with the Flayer sub-type ignore the Living Metal sub-type's restriction on performing Sweeping Advances.

### **Floating**

A unit that includes only models with the Floating sub-type may ignore the effects of any and all terrain it passes over during movement, including passing over vertical terrain and Impassable Terrain without penalty or restriction. However, such units may not begin or end their movement in Impassable Terrain, and if beginning or ending their movement in Dangerous Terrain must take Dangerous Terrain tests as normal.

### **Noble**

A model with the Noble sub-type gains the Independent Character special rule.

# Necron Factions

## Charnovokh

**Advanced Reaction:**

**Dynasty Effect:**

## Maynarkh

Maynarkh Dynasty Necron units gain the Necron Dynasty (Maynarkh) special rule, which grants the TODO: This advanced reaction and Cursed Awakening special rule.

Any unit with the Necron Dynasty (Maynarkh) special rule and Character sub-type may take any of the following:

- **Mark of the Flayer** special rule .....0 points.

Any unit with the Necron Dynasty (Maynarkh) special rule may take any of the following:

- **Flensing Scarabs** ..... +10 points.

**Advanced Reaction:**

**Necron Dynasty (Maynarkh) (Cursed Awakening):** When a unit made up of entirely models with the Necron Dynasty (Maynarkh) special rule attacks during the Fight phase against an enemy unit that is Pinned, Falling Back, or outnumbered by the attack unit it gets a +1 to all To Wound or Armour Penetration rolls made during the Assault. Furthermore if one or more models with this special rule are part of a combat that results in a draw, then the side that includes one or more models at the end of the fight sub-phase with this special rule is counted as having won the combat by 1 point. If both sides include models with this special rule then the combat remains a draw. Models with the Decurion/Tesseracterion Nemesor special ability may also take Charnel Lychguard as a part of the same Force Organization slot.

## Mephrit

Mephrit Dynasty Necron units gain the Necron Dynasty (Mephrit) special rule, which grants the Solar Fury advanced reaction and Stellar Destruction special rule.

Any unit with the Necron Dynasty (Mephrit) special rule may take any of the following:

- **Stellar Energetic Reactors** ..... +10 points.

**Advanced Reaction (Solar Fury):** This Advanced Reaction may be made once per battle during the opposing player's Shooting phase when any enemy unit declares a Shooting Attack targeting a friendly unit under the Reactive player's control composed entirely of models with the Necron Dynasty (Mephrit) special rule. Once the Active player has resolved all To Hit and To Wound rolls, and Armour Saves are made, but before any Damage Mitigation rolls are made or casualties removed, the Reactive player may make a Shooting Attack, targeting the unit that triggered this Reaction, with all weapons increasing their AP by 1 but gaining the Gets Hot special rule. To Hit rolls for weapons that already possess the Gets Hot special rule trigger that special rule on a roll of 1 or 2 during this Shooting Attack, instead of only on a 1. A unit that makes a Solar Fury as part of a Solar Fury Reaction may not make any attacks indirectly (without line of sight) including weapons with the Barrage special rule or other weapon or special rule that otherwise ignore line of sight, and Vehicles may only fire Defensive weapons. Template weapons used as part of a Solar Fury Reaction use the Wall of Death rule instead of firing normally.

**Necron Dynasty (Mephrit) (Stellar Destructors):** When a unit made up of entirely models with the Necron Dynasty (Mephrit) special rule rolls for scatter with a Blast Weapon they roll a D6 instead of 2D6.

## Nephrekh

**Advanced Reaction:**

**Dynasty Effect:**

## Nihilakh

**Advanced Reaction:**

**Dynasty Effect:**

## Novokh

Novokh Dynasty Necron units gain the Necron Dynasty (Novokh) special rule, which grants the Blood Engrams advanced reaction and Awakened By Murder special rule.

Any unit with the Necron Dynasty (Novokh) special rule may take any of the following:

- **Todo** ..... +10 points.

**Advanced Reaction (Blood Engrams):** This Advanced Reaction may be made once per battle in the opposing player's turn, when any enemy unit with one or more models within 12" of a friendly unit made up entirely of models with the Necron Dynasty (Novokh) special rule is moved during the Movement phase. Once the enemy unit that triggered this Reaction has been moved, but before any other units are moved, a single friendly unit made up entirely of models with the Necron Dynasty (Novokh) special rule that can draw a line of sight to the enemy unit that moved may immediately move up to a number of inches equal to twice the highest Initiative Characteristic in the unit and then declare a Charge targeting the enemy unit that moved if it is within 12". A Charge declared as part of this Reaction is resolved immediately (the enemy unit may not declare any Reaction against this Charge), and if successful the combat will be fought as normal in the following Assault phase, with a Charging unit with the Necron Dynasty (Novokh) special rule gaining all the normal benefits of Charging.

**Necron Dynasty (Novokh) (Awakened By Murder):** In the Fight sub-phase, after casualties have been removed but before determining which side has won, if this unit has caused unsaved wounds to the enemy unit it enters *Engrammatic Blood Rage* until the end of the game. When in *Engrammatic Blood Rage*, this unit gains the Fearless, Furious Charge (1), and Rage (1) special rules.

## Sautekh

**Advanced Reaction:**

**Dynasty Effect:**

## Szarekhan

Szarekhan Dynasty Necron units gain the Necron Dynasty (Szarekhan) special rule, which grants the TODO advanced reaction and Uncanny Artifice special rule, alongside providing access to certain pieces of wargear.

Any unit with the Necron Dynasty (Szarekhan) special rule may take any of the following:

- Master-Work special rule on one of their weapons ..... +10 points.

**Advanced Reaction (Undying Empire):** This Advanced Reaction may be made once per battle in the opposing player's turn, when any enemy unit declares a Shooting Attack targeting a friendly unit under the Reactive player's control composed entirely of models with the Necron Dynasty (Szarekhan) special rule. Once the Active player has completed their attack and casualties are removed, during the resulting **Reanimation Protocols** rolls: after you have created a Reassembling Pool, double its size. After you have finished your **Reanimation Protocols** rolls, the reacting unit may immediately move a number of inches equal to twice the lowest initiative in the unit.

**Necron Dynasty (Szarekhan) (Uncanny Artifice):** Units with this special rule may give any of their weapons Master-Crafted for 10 pts/weapon. Additionally, units with this special rule gain the Stubborn special rule.

## Thokt

Any unit with the Necron Dynasty (Thokt) special rule may take any of the following:

- **Radioactive Energetics** ..... +10 points.
- **Rad-Receptors** ..... +2 points.

**Advanced Reaction:**

**Dynasty Effect:**

## Triarch

Triarch buffs? Command buffs?

**Energy Siphon:** At the end of the Fight sub-phase, if the bearer successfully hit with one or more attacks using the Rod of Night, they may roll a D6. On a roll of 4+, they may do one of the following to a friendly model within 3":

- Restore a lost Wound
- Restore a lost Hull Point

Name	Range	Type	S	AP	Abilities
<b>Gauntlet of Fire</b>	Template	Assault 1	4	5	—
<b>Tachyon Arrow</b>	∞	Assault 1	10	1	Destructor, One use, Path of Annihilation

**Path of Annihilation:** When the weapon with this special rule is used to make a Shooting Attack, draw a  $\frac{1}{2}$ " wide line from the model up to the listed range of the weapon — this is the projectile's path.

- For each model (friend and enemy) caught in the path (except the firing model), roll to hit as usual for a Shooting Attack, with each model suffering a hit if successful. Models with the Flyer sub-type are not affected unless the controlling player decides to affect *only* models with the Flyer sub-type.
- If a Terrain piece, Building, or model with the Vehicle Unit Type or any model with 6 or more Wounds is successfully hit and does not suffer a Penetrating Hit or unsaved Wound the attack is blocked and its path will go no further than that model. The blocking model will however, suffer D3 additional hits.
- If a model with the Vehicle Unit Type and the Transport Sub-Type suffers a Penetrating Hit from a weapon with this special rule, each unit Embarked on it suffers D6 hits from the weapon, in addition to any other effects. Any Wounds caused are allocated by the controller of the target unit.
- If a model with the Void Shields special rule is successfully hit by this attack and the Void Shield suffers a Penetrating Hit, immediately resolve another hit against the next Void Shield or the model itself if no Void Shields remain until an Armour Penetration roll is failed. If an Armour Penetration roll is failed against a Void shield the attack is blocked and its path will go no further than that model and it suffers no additional hits.
- Successful Invulnerable Saves and Feel No Pain Damage Mitigation rolls must be re-rolled. Successful Shrouded Damage Mitigation rolls are considered to have not hit the model.

## Technoarkana

### Bloodswarm Scarabs

Friendly units with the Flayer sub-type can re-roll the scatter dice when arriving from Deep Strike Reserve.

### Dispersion Shield

Grants a 3+ Invulnerable Save, but the wielder never receives +1 Attack for fighting with two Melee weapons. In addition, if this save is made against a shooting attack, the bearer may take a -1 penalty to the Invulnerable Save to attempt to reflect the weapon into a nearby enemy. If the save is successful, choose an unengaged enemy unit within 6": that unit then suffers a single hit equivalent to the attack that was saved. This option may not be used on Blast or Template weapons. For the purpose of cover and other effects, treat the reflected shots as having come from the bearer's unit.

### Dynastic Ankh

Some sort of vexilla style benefit.

### Flensing Scarabs

During the first round of each close combat, this unit's weapons count as having the Shred special rule. Units with the Necron Dynasty (Maynarkh) special rule may also take this wargear.

### Gloom Prism

This model gains the Anathema sub-type. Additionally, any psychic power targeting a unit within 3" of this model is nullified on a 4+.

### Hyper-Oubliette Navigator

The **Ethereal Interception** Advanced Reaction can be performed by this unit for 0 Reaction Allotment. Additionally, the may opt to re-roll Deep-Strike scatter rolls.

### Mindshackle Scarabs

At the start of the Fight sub-phase, select a model in base contact with the bearer. The target must take a Leadership Check on 3D6. If the Check is failed, the victim strikes at his allies instead of attacking normally. During the Fight sub-phase, the target makes his attacks against his own unit (automatically hitting if they are the only model in the unit), resolved as normal with any abilities and penalties from his weapons (the controller of the Mindshackle Scarbs chooses which, if there is a choice). If the target is still alive, the victim returns to normal once all blows in that round of combat have been struck. Dreadnoughts and Automata may re-roll failed Leadership tests for this effect.

### Phylactery

Increase the models It Will Not Die level to 3+.

### Phase Shifter

Grants a 4+ Invulnerable Save.

## Stellar Energetic Reactors

This wargear may only be taken by units with the Necron Dynasty (Mephrit) special rule. When making Shooting attacks, this unit's weapons count as having the Shred special rule.

## Shadow Ankh

The bearer gains the Anathema sub-type.

## Resurrection Orb

Once per battle, on your turn, the bearer can activate their Resurrection Orb. If it does, select one friendly unit with **Reanimation Protocols** within **Nodal Range**. The bearer of the Orb and the selected unit immediately **reassembles** a number of wounds equal to the total number of missing wounds and number of wounds from all destroyed models.

## Semipternal Weave

Increase the model's save to 2+.

## Sepulchral Scarabs

Increase this model's It Will Not Die level to 3+.

## Tesseract Labyrinth

One use only.

The bearer can use the Tesseract Labyrinth in lieu of making a Shooting or Close Combat attack this round. Choose a unit within 6". The unit must immediately roll a Wounds Check for each model based on their current remaining wounds or be trapped within the Labyrinth while the Necron Character remains alive.

This can also be used to carry a unit alongside the bearer. Select a unit to start the game inside the Tesseract Labyrinth. They can be disembarked as if they were in a Transport with no Special Abilities following the relevant rules.

If paired with the **Mindshackle Scarabs** wargear, this can also be a unit chosen from an enemy faction. The unit is treated as a Distrusted Ally and still take up a relevant Force Org Slot. In narrative games, units that are captured at the end of the game can be included as well. Leave it your opponents as to whether it includes a Force Org Slot or points.

## Translocation Shroud

The bearer and its attached unit gains the Fleet (2) special rule. When moving, the bearer and its attached unit can move over all other models and terrain as if they were open ground. However, they cannot end their move on top of other models and can only end their move on top of impassable terrain if it is possible to actually place the models on top of it.

## Quantum Shielding

A vehicle equipped with active quantum shielding counts all of its Front and Side Armour Values as 13. A vehicle's quantum shielding is active until it suffers a penetrating hit, at which point it immediately deactivates. For the remainder of the battle after a vehicle's quantum shielding deactivates, all subsequent hits against that vehicle (including hits made from subsequent shooting attacks in the same phase – either from a different weapon or a different unit – or hits made at a lower Initiative step in close combat) are treated as though the vehicle was not equipped with quantum shielding.

## Artefacts of the Aeons

## Cryptek Conclaves

When taking a Cryptek Conclave, a **Discipline** must be taken from the list below, which grants a number of options, abilities, and restrictions to the unit.

### Harbingers of Despair \_\_\_\_\_ X pts

Psychomancers must take an **Abyssal Staff** when selecting the Harbingers of Despair as their Discipline.

#### Abyssal Staff

Name	Range	Type	S	AP	Abilities
<b>Abyssal Staff</b> (Shooting)	Template	Assault 1	8	1	Shroud of Despair
<b>Abyssal Staff</b> (Melee)	—	Melee	8	1	Shroud of Despair

**Shroud of Despair:** To Wound rolls are made against the target's Leadership (modified by Fear) rather than Toughness. The attack has no effect against Vehicles.

### Atavindicator \_\_\_\_\_ X pts

The bearer can activate the Atavindicator at the end of their Movement, selecting an enemy unit that is not a Vehicle within 18". The targeted unit must roll a Leadership Check with a -4 penalty. Failure causes each model in the unit to automatically hit itself with a S +1 AP — melee attack.

### Nightmare Shroud \_\_\_\_\_ X pts

The bearer gains the Fear (1) rule. Additionally, the Shroud may be used during the Shooting Phase instead of firing a weapon. Choose an enemy unit within 18" of the bearer. That unit must immediately take a Morale Check.

### Veil of Darkness \_\_\_\_\_ X pts

The bearer of the Veil of Darkness has the Deep Strike special rule. In addition, once per game, at the start of any friendly Movement phase, the bearer can use the Veil of Darkness to remove himself and his unit from the table, even if they are locked in combat. They then immediately arrive anywhere on the board using the rules for Deep Strike. The bearer also has the **Transpositional Defence** Advanced Reaction.

### Harbingers of Destruction \_\_\_\_\_ X pts

Plasmancers must take an **Eldritch Lance** when selecting the Harbingers of Destruction as their Discipline.

#### Eldritch Lance

Name	Range	Type	S	AP	Abilities
<b>Eldritch Lance</b> (Shooting)	36"	Assault 1	8	2	Lance
<b>Eldritch Lance</b> (Melee)	—	Melee	User 2		Lance

### Gaze of Flame \_\_\_\_\_ X pts

The bearer, and its unit, are treated as being armed with Defensive grenades.

### Plasmic Lance \_\_\_\_\_ X pts

Any Plasmancer may exchange their Eldritch Lance for a Plasmic Lance.

Name	Range	Type	S	AP	Abilities
<b>Plasmic Lance</b> (Shooting)	18"	Assault 3	7	3	—
<b>Plasmic Lance</b> (Melee)	—	Melee	User 3		—

### Solar Pulse \_\_\_\_\_ X pts

Once per game, at the start of any turn, the bearer can use this special rule. When he does, the Night Fighting rules are not in effect for the remainder of the turn (if they were in effect). In addition, when this special rule is used, enemy units targeting the bearer or his unit can only fire Snap Shots until the start of the bearer's next turn.

## Quantum Orb \_\_\_\_\_ X pts

Once per battle, at the start of your turn, the bearer can activate this item. If it does, select one point on the battlefield anywhere within 24" of the bearer and place a marker at that point. At the start of your next turn, resolve a S8 AP 3 Large Blast hit directly on that location. TODO: Reaction?

## Harbingers of Eternity \_\_\_\_\_ X pts

Chronomancers must take an **Aeonstave** when selecting the Harbingers of Eternity as their Discipline.

### Aeonstave

Name	Range	Type	S	AP	Abilities
<b>Aeonstave</b>	—	Melee	User	—	<b>Entropic Strike</b> (4+), Chronal Charge

**Chronal Charge:** Models which suffer an unsaved Wound or loses a Hull Point from this weapon loses the Fleet special rule and has its Weapon Skill, Ballistic Skill, Initiative and Attack values reduced to 1 for the remainder of the game.

## Chronometron \_\_\_\_\_ X pts

A model with a Chronometron can re-roll one of its D6 rolls each phase alongside granting a 6+ Invulnerable Save. If the bearer is in a unit, this ability can be used to instead re-roll one of the units D6 rolls each phase and provides the 6+ Invulnerable Save to the attached unit as well. In addition, this bearer is able to use the **Strategical Timeweaver** Advanced Reaction.

## Chronotendrils \_\_\_\_\_ X pts

The bearer's movement speed increases to 9" and they gain the Hammer of Wrath (3) ability.

## Countertemporal Nanomines \_\_\_\_\_ X pts

Provide some sort of dangerous terrain / slowing / similar minefield effects.

## Entropic Lance \_\_\_\_\_ X pts

Any Chronomancer may upgrade their Aeonstave to an Entropic Lance.

Name	Range	Type	S	AP	Abilities
<b>Entropic Lance</b> (Shooting)	Assault 1	18"	7	3	Brutal (2), <b>Entropic Strike</b> (2+)
<b>Entropic Lance</b> (Melee)	—	Melee	User	3	Brutal (2), <b>Entropic Strike</b> (2+)

## Timesplinter Cloak \_\_\_\_\_ X pts

A model with a Timesplinter Cloak has a 3+ Invulnerable save.

## Harbingers of Storm \_\_\_\_\_ X pts

Ethermancers must take an **Voltaic Staff** when selecting the Harbingers of Storm as their Discipline.

### Voltaic Staff

Name	Range	Type	S	AP	Abilities
<b>Voltaic Staff</b> (Shooting)	12"	Assault 4	5	—	Haywire
<b>Voltaic Staff</b> (Melee)	—	Melee	User	—	Haywire

## Ether Crystal \_\_\_\_\_ X pts

Any enemy unit arriving by Deep Strike within **Nodal Range** of the bearer suffers d6 S8 AP 5 hits. If they arrive within range of multiple Crystals, only increase the number of hits by 1 for each Crystal past the first.

## Living Lightning \_\_\_\_\_ X pts

At the beginning of the Assault Phase, each enemy unit within **Nodal Range** of the bearer suffers 1 S8 AP 5 hit. TODO: Reaction?

## Metalodermal Tesla Weave \_\_\_\_\_ X pts

When an enemy unit successfully moves into assault with the Cryptek or his unit, the assaulting unit immediately suffers d6 S8 AP 5 hits.

## Harbingers of Technomancy \_\_\_\_\_ X pts

Technomancers must take a **Staff of Light** when selecting the Harbingers of Technomancy as their Discipline. Additionally, they must purchase the **Rites of Reanimation** ability.

## Canoptek Cloak \_\_\_\_\_ X pts

Increase the bearer's move to 12" and it gains the Fleet (1) rule alongside the Antigrav and Light sub-type.

## Canoptek Control Node \_\_\_\_\_ X pts

Increase your **Nodal Range** to 12" for the purposes of suppressing the **Soulless Hordes** trait for units with the Canoptek sub-type. TODO: Reaction to shoot back better?

## Fail-Safe Overcharger \_\_\_\_\_ X pts

Psychic power thing where you have a lot of option and roll with penalties for each you want, causing wounds on fail.

- Test

## Phylacterine Hive \_\_\_\_\_ X pts

Once per battle, when using your **Rites of Reanimation** ability, you may select a non-friendly unit with **Reanimation Protocols** (Such as Destroyer Cult or Flayer Virus units) to be affected.

### Rites of Reanimation

After this model has moved, select a friendly unit with **Reanimation Protocols** within **Nodal Range** on the bearer. That unit immediately **reassembles** a number of wounds equal to the number of wounds from all destroyed models (Do not include any lost wounds from non-destroyed models), but roll with a -1 modifier if the unit is not Dynastic Warriors.

## Harbingers of Transmogrification \_\_\_\_\_ X pts

Geomancers and Alchemists must take an **Tremorstave** when selecting the Harbingers of Transmogrification as their Discipline.

## Tremorstave \_\_\_\_\_ X pts

Name	Range	Type	S	AP	Abilities
<b>Tremorstave</b> (Shooting)	36"	Assault 1	4	—	Blast, Pinning, Quake
<b>Tremorstave</b> (Melee)	—	Melee	User	—	Pinning

**Quake:** After resolving all wounds, leave the Blast marker in place, or otherwise mark the area. This area now counts as Difficult Terrain until the start of the next turn of the player that made the attack.

## Harp of Dissonance \_\_\_\_\_ X pts

Name	Range	Type	S	AP	Abilities
<b>Harp of Dissonance</b>	∞	Assault 1	6	—	<b>Entropic Strike</b> (4+)

Cryptogeometric Adjuster \_\_\_\_\_ X pts

Seismic Crucible \_\_\_\_\_ X pts

Sky of Falling Stars (Shard)	24"	Assault 3	7	4	Barrage, Large Blast
Sky of Falling Stars (Transcendent)	48"	Assault 6	7	4	Apocalyptic Barrage

#### Swarm of Spirit Dust

The C'Tan gains Shrouded at a level dependent on its own level. Additionally, when targeted by a Shooting Attack, the range between an attacking unit and this model is considered to be a number of inches longer than actual, dependent on its level. In addition, when attacked by a weapon with the Barrage special rule a unit including one or more models with a distort field is always treated as though it was out of line of sight when scattering any attacks.

**Shard:** Shrouded (6+), +6"

**Shard:** Shrouded (5+), +9"

<b>Transdimensional Thunderbolt</b> (Shard)	24"	Assault 1	9	1	Tesla (6+)
<b>Transdimensional Thunderbolt</b> (Transcendent)	48"	Assault 2	9	1	Tesla (5+)

### Withering Worldscape

Whilst the C'tan Shard is on the battlefield, all Difficult terrain is Dangerous for the enemy. If the terrain is already Dangerous, the Dangerous Terrain test is failed on a 1 or a 2.

### Specialist Powers

#### Gaze of Death

In its Shooting phase, in addition to using Powers of the C'tan, this model can target one non-vehicle enemy unit within 12" to which it has line of sight. The unit suffers a number of Wounds, dependent on the level of the C'Tan. Shard level causes wounds equal to 3D6 minus the target's Leadership while Transcendent causes 4D6. These are resolved at AP2 and with the Ignores Cover special rule. If at least one unsaved Wound is inflicted, the C'tan Shard of the Nightbringer immediately regains one Wound lost earlier in the battle.

#### Lord of Fire (X)

All Flamer weapons (as well as Heat Rays, Burnas, Skorchas, Inferno Cannons and any other weapons which is described as using 'flame' or 'fire' as its effect or in its special rules) and weapons with the melta type fired within 12" of the C'tan Shard have a chance of exploding. Roll a D6 each time such a weapon is fired within range. On a roll equal or greater to this power's level, the weapon detonates. If carried by a non-vehicle model, the model is removed from play as a casualty with no saves. If mounted on a vehicle, it counts as Weapon Destroyed and causes the lose of a Hull Point. In either case, the shot(s) misfire and are lost.

**Shard:** Lord of Fire (6+)

**Transcendent:** Lord of Fire (5+)

#### Gaze of the Abyss

If this model would be targeted by a Shooting Attack or Charge, the attacking unit must immediately make a Morale Test. Additionally, the C'Tan has the Fear ability at a level dependent on its level.

**Shard:** Fear (2)

**Transcendent:** Fear (3)

#### Grand Illusion

After all forces have been deployed and all Scout moves have been made, roll a dice dependent on the C'Tan's level, being a D3 for Shard and D6 for Transcendent. You can immediately redeploy this many units, subject to the normal deployment rules for the mission. This power can be used to move units into or out of, reserve.

#### Voltaic Storm

After this model has completed its movement, target an enemy Vehicle, Dreadnought, or Automata unit within 18" with this power. Roll a D6 to determine the effect, dependent on the C'Tan's level.

D6	Result
1	No Effect
2-3	A Vehicle Unit Type that is part of the target unit suffers 1 Glancing Hit if Shard Level, or 2 if Transcendent level. Any other model suffers 1 or 2 Wounds respectively. Only Invulnerable Saves or Damage Mitigation rolls may be taken against these.
4-5	A Vehicle Unit Type that is part of the target unit suffers 1 Penetrating Hit if Shard Level, or 2 if Transcendent level. Any other model suffers 1 or 2 Wounds respectively. Only Invulnerable Saves or Damage Mitigation rolls may be taken against these. Re-roll results of Crew Stunned and Explodes.
6	A Vehicle Unit Type that is part of the target unit suffers 1 Penetrating Hi, or 2 if Transcendent level. Any other model suffers 1 or 2 Wounds respectively. Only Invulnerable Saves or Damage Mitigation rolls may be taken against these.

## Reactions

### Ethereal Interception

If this unit is in Deep-Strike reserves, this reaction may be made after an enemy units arrives from Reserves and has finished all of their movement. The reacting unit immediately arrives from Reserves, following the rules for Deep Strike Assaults. Then, if it within Line of Sight of the triggering unit, it may make a Shooting attack against the triggering unit. This reaction may only be used once per turn for each unit with it.

### Strategical Timewaeaver

When an opponent declares a Shooting Attack or Fights this unit or a unit it is attached to, this reaction may be declared. The triggering unit must re-roll all successful To Hit and To Wound rolls against the reacting unit until the end of the attack, keeping the second result. This re-roll occurs even if the triggering unit's rules (e.g. Shred, Hatred, etc.) have already re-rolled these dice. This reaction may only be used once per game, per unit.

## TROOPS

The rank and file of the Necron armies are the Dynastic Warriors. Silent as the grave, Warriors move with slow, erratic, yet exacting movements. Despite this sluggishness, Warriors are capable of great accuracy at range and devastating blows up close. Like all Necrons, a Warrior's living metal necrodermis body is incredibly durable, capable of absorbing truly horrendous amounts of fire with hardly a scratch to show for it. When enough punishment is heaped on a Warrior to actually damage it, advanced self-repair protocols undo all but the most severe damage in moments. These seemingly indestructible machines carry Gauss Flayers which utilise theoretically impossible science to strip their target apart on a molecular level. These potent weapons can strip the adamantium from a battle tank's hull as surely as they strip the flesh from a man. Even Power Armour and the enhanced constitution of an Astartes provide limited defence. While the Necron nobility retained their personalities and intellects intact, their Warriors did not come through bio-transference so fortunate. Warriors possess but a dim spark of life, relying in battle on orders given through the Nodal Command network and programmed attack patterns rather than any self-direction or intellect.

TROOPS

As the shock troops of a Tomb World's armies, Immortals have a far wider range and depth of reaction than Warriors, for they have retained much of their tactical and strategic experience from eons ago. Indeed, in many ways, the biotransference to machine bodies and minds only sharpened the Immortals' ability to prosecute war in an efficient fashion. This is not to say that Immortals do not have shortcomings. Like all Dynastic Legions, they are still inescapably tied to the Nodal Command matrix and are reliant upon it for more advanced order. In life, Immortals were the professional soldiery of the Necrontyr empire. In death, they surpass the Warriors in nearly every way. Possessed of even more resilient frames, Necron Immortals prove almost impervious to small arms. Their training and experience in combat survived the process of bio- transference undiminished, and Immortals seem to have retained a brighter spark of intellect than their less favoured brethren, although only in regard to the practice of war. Outside of combat, Immortals display about as much personality as a monotask Servitor. Immortals are typically armed with Gauss Blasters, weapons even deadlier than the Gauss Flayers used by Warriors.

*Metasentient Energization (Destructor):* Once per turn at the start of the Assault Phase, all other models with the Destroyer sub-type in the Plasmacyte's attached unit gains +1 S and +1 A until the end of the turn. If you do so, roll a D6: on a 5+, the unit suffers an immediate Wound, which only Invulnerable Saves and Damage Mitigation rolls can prevent.

*Metasentient Energization (Accelerator):* Once per turn, after the Plasmacyte or its attached unit fails a Leadership test, you may have the unit re-roll the check. If you do so, roll a D6: on a 5+, the unit suffers an immediate Wound, which only Invulnerable Saves and Damage Mitigation rolls can prevent.

*Metasentient Energization (Reanimator):* Once per turn, when the Plasmacyte or its attached unit's Reanimation Protocols is triggered, you may add a +1 to all the reanimate rolls. If you do so, roll a D6: on a 4+, the unit suffers an immediate Wound, which only Invulnerable Saves and Damage Mitigation rolls can prevent. Each unit can only ever be affected by one Plasmacyte Reanimator each turn.

*Viral Construct:* For each unit with the Destroyer sub-type in your army, a Canoptek Plasmacyte Destructor may be taken without taking up a Force Organization slot. ## Unit Rules

**Enslaved Star God:** If this model would be removed (after **Reanimation Protocols** roll have been failed), roll a D6. On a 1, the shackles of the C'Tan Shard have been broken and it is now *rampaging*. The opposing player returns the model to a point within 3" of where it dies with 1 Wound remaining. While rampaging, the C'Tan Shard is considered an enemy unit to all players and takes its turns at the beginning of its owner's turns use the standard rules. It will attempt to attack the closest and highest number of units possible each turn, preferring its owner's units in case of a tie. If it would be removed while rampaging, this ability does not trigger again.

**Immune to Natural Laws:** When moving, this model can move over all other models and terrain freely, and automatically passes Dangerous Terrain tests. However, it cannot end its move on top of other models and can only end its move on top of impassable terrain if it is possible to actually place the model on top of it.

**Matter Absorption:** At the end of the turn, if an enemy Vehicle or Dreadnought was destroyed as a result of an attack made by this model, the Void Dragon immediately make a check against this model's It Will Not Die ability for each model destroyed. If successful, it regains a lost Wound and remove any wrecks for the respective vehicle from play.

**Necrodermis Vessel:** The Void Dragon has a 4+ invulnerable save and ignores the Living Metal sub-type's restriction on performing Sweeping Advances.

**Powers of the C'Tan:** The Void Dragon has two C'Tan Powers at the Shard Level. One is the **Voltaic Storm** specialty power, and the other must be chosen below.

## Allied Units

When selecting your units' Dynasties, Destroyer and Flayed One units count as being both Destroyer Cult and the selected Dynasty. Use the worst Level of Alliance between the two.

Sautekh	Sautekh
Szarekhan	Szarekhan
Thokt	Thokt
Triarch	Triarch
Destroyer Cult	Destroyer Cult
Flayed Ones	Flayed Ones

### Level of Alliance

#### Dynastic Allies

The closest of allies who have fought beside each other many times. The two forces are considered 'friendly units' in all regards. This means, for example, that Dynastic Allies may be joined by allied Independent Characters, are treated as friendly units for the targeting of special abilities, Warlord Traits and so on.

Note: Not even Dynastic Allies can embark in allied Transport Vehicles, and rules that affect a particular force owing to its Dynasty special rule do not carry over to Dynastic Allies allied units.

#### Fellow Warriors

The two forces are willing to fight together for common cause against their foes. Units in your army treat other units at the Fellow Warriors level of Alliance as not being part of the army with the exception that they may not be deliberately targeted, attacked, targeted with special abilities, etc, (note that Blasts and the like may still scatter over allied forces and adversely affect them).

Fellow Warriors cannot benefit from the effects of allied Warlord Traits or be joined by allied Independent Characters, and are not counted as friendly units for the purposes of special abilities. In essence, the two forces fight alongside each other without any additional positive or negative effect.

#### Distrusted Allies

The two forces can make common cause against an enemy, but never fully trust each other due to a long-standing feud or inherent antipathy. Models in the allied detachment are treated exactly like Fellow Warriors except that units in this allied detachment are never counted as Scoring units and may not hold Objectives.

#### By the Phaeron's

The two forces will only ever fight beside each other in the direst of circumstances or by the direct command of their royal lord. The two forces are dealt with as Distrusted Allies but, in addition, whenever a unit is within 6" of a unit that is part of a Faction that falls under this level of alliance then both units reduce their Leadership by -1 until they are no longer within 6" of any unit from that Faction that is part of the same army.
